PROFILE SUMMARY

Software Engineer | Dot Net Full Stack Developer

Accomplished **Full Stack Developer** with **8.9 years of expertise** in the .NET ecosystem and extensive experience working with **Syncfusion products**, including **BoldBI, BoldSign, and BoldDesk**. Adept at **designing, developing, and integrating** innovative software solutions, strongly focusing on usability, scalability, and secure system architecture. Skilled in collaborating across teams to deliver high-quality solutions, while continually expanding technical expertise.

CORE COMPETENCIES

Software Development Lifecycle Management | Solution Architecture | System Design | API Development | Systems Integration | UI/UX Development | Cloud & DevOps Practices | Database Management | Agile Methodologies | Cross-Functional Collaboration | Quality Assurance & Testing | Problem-Solving | Debugging | Documentation | Knowledge Sharing | Performance Monitoring | Stakeholder Management

Technical Skills

- **Front-End:** HTML, CSS, Bootstrap, JavaScript, Typescript
- **Back-End & APIs:** ASP.NET, .NET Core, MVC, C#, RESTful APIs, Node.js
- **Databases:** SQL Server, MySQL, PostgreSQL
- **Frameworks & Libraries:** React.js, Vue
- **Other Tools:** Microsoft Azure, DevOps (Cloud-based automation), Azure Service Bus, MS Office

CERTIFICATION

- **Certified DevOps Associate – Cloud Train**
Completed advanced DevOps workshop focusing on cloud-based automation.
Issued: Feb 4, 2025
- **AI Tools and ChatGPT Workshop – be10x**
Acquired proficiency in **AI-driven productivity**, including presentation creation, data analysis, and AI-assisted coding/debugging.
Issued: Nov 30, 2024
- **Cybersecurity Skilling Course – Tech Mahindra Foundation**
Gained strong foundations in **cybersecurity**, covering threat detection, risk management, and data protection.
Issued: Apr 24, 2024

PROFESSIONAL EXPERIENCE

GEN2K CONGLOMERATE– Ramanathapuram, India

Senior Software Engineer | Mar 2025 - Jun 2026

- Designed and developed the **Thrifty App**, implementing **Firebase authentication** and **real-time database integration** to provide secure and efficient credit/debit transaction tracking.
- Led the **Bairuha website project**, transforming client requirements into a scalable, user-friendly web platform with customised features aligned to customer insights.
- Delivered **multiple end-to-end web solutions**, including an **architecture portfolio website** and an **air travel consultancy platform**, overseeing **front-end and back-end development**.
- Conducted comprehensive **testing and optimisation** to ensure **cross-device compatibility**, high performance, and responsive design across mobile, tablet, and desktop platforms.

SYNCFUSION SOFTWARE PRIVATE LIMITED – Chennai, India

Software Engineer (Level 3) | Feb 2023 – Feb 2025

- Spearheaded the **integration of BoldSign** with Google Drive, OneDrive, and Dropbox using C# and ASP.NET, ensuring seamless and secure document sharing and storage across platforms.
- Designed and developed a **retroactive backup utility** using ASP.NET Web APIs and Vue js technologies, enabling users to archive and retrieve historical documents on demand.

- Architected a **structured batch processing system** for user account deletion, ensuring complete removal of data across databases, Cosmos DB, Azure Blob Storage, and Elasticsearch indexes.
- Implemented robust **security protocols, authentication mechanisms**, and Azure Service Bus Queues for **secure, asynchronous, and scalable data processing**.
- Conducted rigorous **functional, compatibility, and performance testing**, improving system reliability and ensuring smooth multi-platform data synchronisation in Microsoft Azure cloud environments.

Software Engineer (Level 2) | Oct 2019 – Jan 2023

- Led the **design and development of core UI modules** for the BoldDesk application using C#, ASP.NET MVC, and modern front-end frameworks like react.js.
- Developed and deployed **new product features** across **agent and customer portals**, enhancing usability and performance in Azure-hosted environments.
- Ensured **cross-browser compatibility** and responsive design for all UI components, improving accessibility and global user reach.
- Collaborated with UX teams to convert customer feedback into **scalable design improvements**.
- Conducted **usability testing** and iterative refinements, resulting in a more intuitive, user-centric interface.

Software Engineer (Level 1) | May 2019 – Oct 2019

- Enhanced UI styling for Syncfusion components and **Bootstrap themes** using C#, ASP.NET controls, and layered architecture.
- Designed and developed the new **'Fusion' theme** for Syncfusion components, improving branding flexibility and visual consistency.
- Built multiple theme sample variations, **integrating colour customisation logic** in ASP.NET MVC modules.

Software Engineer | Aug 2017 – Apr 2019

- Contributed to the development of **BoldBI products**, covering both front-end and back-end aspects by using the technologies like typescript and SQL database.
- Built **RESTful APIs** to streamline communication between application layers.
- Designed data retrieval, manipulation, and storage processes for optimised performance.
- Enhanced **UI/UX** for BoldBI products, leading to an improved customer experience.

SCIENTIFIC PUBLISHING SERVICES PRIVATE LIMITED – Chennai, India

Production Editor | Aug 2016 – Aug 2017

- Ensured adherence to **journal formatting standards** for all published content.
- Reviewed **page proofs** for accuracy in text, figures, tables, and citations.
- Verified correctness of **author affiliations, references, and supplementary material**.
- Collaborated with editorial, production, and marketing teams to ensure publication quality.

EDUCATION

- **Bachelor of Engineering (B.E.), Computer Science Engineering**
Anna University, Chennai
